

Carnes Relocation Update: There have been a number of changes since our last update. The sluggish economy has drastically slowed the pace of development in our new Carnes Crossroads location. Although a test of patience, it again proves that God's timing is better than ours. As a result of the delays, The Daniel Island Company offered us a new location that is far superior to our previous one. The new campus will be strategically positioned much closer to the intersection of Highways 17A and 176 at the head of two main avenues, only a block off of 17A. Initially, we are focusing on replacing the main church facilities lost in the August 2006 fire. This will allow us to keep the lower and upper schools together in their current locations as we wait on the economy to recover and find buyers for the two campuses. Depending on a number of factors, it could well be several years before the school begins the relocation process. We continue to ask for your prayers as we proceed.
